

LEADERSHIP CHESTER COUNTY

Building the Future, One Leader at a Time

A PROGRAM OF

United Way
of Chester County

IN PARTNERSHIP WITH

One of the most effective ways to strengthen our community is to place outstanding talent in positions of non-profit leadership. Non-profits are dedicated to serving our community, but realize the daily challenges of maintaining a viable business that is responsive to the population's needs. Their executives look to volunteer boards for vision, strategic planning and resource development to accomplish their mission.

Partnering with the United Way, Chester County businesses can develop in their strongest team members the desire to serve and the leadership skills needed to grow our community and grow your business.

Leadership Chester County is a premier professional development and community engagement opportunity designed to foster a vibrant, safe and inclusive community. Participants explore complex social and community issues, develop leadership potential, form lasting professional relationships and meet over 25 non-profit organizations that are seeking board members.

Graduates bring back to their organizations valuable business, leadership and entrepreneurial skills. They explore the local economic landscape for insights into your customers and community. They also earn 6 Continuing Education Units (CEUs) through West Chester University and qualify to meet Level I of the Certified Public Manager® designation.

14
years
